Disclaimer

This document is aimed at informing applicants for EU funding. It serves only as an example. The actual web forms and templates are provided in the Funding & Tenders Portal Submission System (and may contain certain differences). The applications (including annexes and supporting documents) must be prepared and submitted online via the Portal.

IMPORTANT NOTICE

What is the Application Form?

The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:

- Part A contains structured administrative information
- Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

How to prepare and submit it?

The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:

- page limit normally **45** pages (unless otherwise provided in the Call document)
- supporting documents can be provided as an annex and do not count towards the page limit
- minimum font size — Arial 9 points
- page size: A4
- margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

 If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

 **Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.**

 **This document is tagged. Be careful not to delete the tags; they are needed for the processing.**

- 1) We declare to have the explicit consent of all applicants on their participation and on the content of this proposal. *
- 2) We confirm that the information contained in this proposal is correct and complete and that none of the project activities have started before the proposal was submitted (unless explicitly authorised in the call conditions).
- 3) We declare:
- to be fully compliant with the eligibility criteria set out in the call
 - not to be subject to any exclusion grounds under the [EU Financial Regulation 2018/1046](#)
 - to have the financial and operational capacity to carry out the proposed project.
- 4) We acknowledge that all communication will be made through the Funding & Tenders Portal electronic exchange system and that access and use of this system is subject to the [Funding & Tenders Portal Terms and Conditions](#).
- 5) We have read, understood and accepted the [Funding & Tenders Portal Terms & Conditions](#) and [Privacy Statement](#) that set out the conditions of use of the Portal and the scope, purposes, retention periods, etc. for the processing of personal data of all data subjects whose data we communicate for the purpose of the application, evaluation, award and subsequent management of our grant, prizes and contracts (including financial transactions and audits).

The coordinator is only responsible for the information relating to their own organisation. Each applicant remains responsible for the information declared for their organisation. If the proposal is retained for EU funding, they will all be required to sign a declaration of honour.

²According to the Commission Decision (EU, Euratom) 2015/444 of 13 March 2015 on the security rules for protecting EU classified information, "European Union classified information (EUCI) means any information or material designated by an EU security classification, the unauthorised disclosure of which could cause varying degrees of prejudice to the interests of the European Union or of one or more of the Member States".

³Classified background information is information that is already classified by a country and/or international organisation and/or the EU and is going to be used by the project. In this case, the project must have in advance the authorisation from the originator of the classified information, which is the entity (EU institution, EU Member State, third state or international organisation) under whose authority the classified information has been generated.

⁴EU classified foreground information is information (documents/deliverables/materials) planned to be generated by the project and that needs to be protected from unauthorised disclosure. The originator of the EUCI generated by the project is the European Commission.

1. RELEVANCE

1.1 Background and general objectives

<p>Background and general objectives</p> <p><i>Describe the background and rationale of the project.</i></p> <p><i>How is the project relevant to the scope of the call? How does the project address the general objectives of the call?</i></p> <p><i>What is the project's contribution to the priorities of the call?</i></p> <p><i>Which target groups will be supported/assisted by/in the project. Why have you chosen to focus on them?</i></p>
Insert text

1.2 Needs analysis and specific objectives

<p>Needs analysis and specific objectives <i>(n/a for Programme Contact Points)</i></p> <p><i>Provide a needs assessment. A need is a gap between what is and what should/ would be helpful or useful.</i></p> <p><i>The needs assessment should be your starting point. Specify what needs will be addressed and how they have been identified. It should be specific and focus on the actual needs of the target group. It should include relevant, reliable data and, a robust analysis clearly demonstrating the need for the action (therefore, avoid references to generic statements and information about the problems and needs of the target group). The needs assessment should incorporate gender equality issues and non-discrimination considerations that identify the differences between and among women and men, girls and boys, in terms of their relative position in society and the distribution of resources, opportunities, constraints and power in a given context. The data supporting the needs assessment should be disaggregated by sex, as well as age or disability, whenever possible. You can refer to existing research, studies and previous projects that already demonstrate the need for action.</i></p> <p><i>If your project is supported by a public authority, annex the Letter of support.</i></p>

1.3 Complementarity with other actions and innovation — European added value

<p>Complementarity with other actions and innovation <i>(n/a for Programme Contact Points)</i></p> <p><i>Explain how the project builds on the results of past activities carried out in the field and describe its innovative aspects. Explain how the activities are complementary to other activities carried out by other organisations.</i></p> <p><i>Illustrate the European dimension of the activities: trans-national dimension of the project; impact/interest for a</i></p>

number of EU countries; possibility to use the results in other countries, potential to develop mutual trust/cross-border cooperation among EU countries, etc.

Which countries will benefit from the project (directly and indirectly and why have you chosen them)? Where will the activities take place?

Clarify to what extent the project builds on synergies with other EU projects. If applicable, explain to what extent your project builds on previous project results in this field (state of play, relation to existing/recent developments, approaches, achievements, other EU programmes).

Note: The project should also complement or add benefits to the EU Member States' interventions in the area of gender equality and non-discrimination mainstreaming.

2. QUALITY

2.1 Concept and methodology

Concept and methodology

Outline the approach and methodology behind the project. Explain why they are the most suitable for achieving the project's objectives. Include ethical and safety considerations to ensure that target groups are not subjected to harm in any way.

Note: Methodology is not a list of activities but are instruments, approaches that will be used, applied and created.

2.2 Consortium set-up

Consortium cooperation and division of roles (if applicable) *(n/a for Town Twinning and Programme Contact Points)*

Describe the participants (Beneficiaries, Affiliated Entities and Associated Partners, if any) and explain how they will work together to implement the project. How will they bring together the necessary expertise? How will they complement each other?

In what way does each of the participants contribute to the project? Show that each has a valid role and adequate resources to fulfil that role.

Note: When building your consortium you should think of organisations that can help you reach objectives and solve problems.

Insert text

2.3 Project teams, staff and experts

Project teams and staff

Describe the project teams and how they will work together to implement the project.

List the staff included in the project budget (budget category A) by function/profile (e.g. project manager, senior expert/advisor/researcher, junior expert/advisor/researcher, trainers/teachers, technical personnel, administrative personnel etc. — use the same profiles as in the detailed budget table, if any *(n/a for pre-fixed Lump Sum Grants)*) and describe briefly their tasks. Provide CVs of all key actors (if required).

Note: Please ensure a gender-balanced representation in the composition of project teams and staff performing the action.

Name and function	Organisation	Role/tasks/professional profile and expertise

Outside resources (subcontracting, seconded staff, etc)

If you do not have all skills/resources in-house, describe how you intend to get them (contributions of members, partner organisations, volunteers, subcontracting, etc).

If there is subcontracting, please also complete the table in section 4. Moreover, ensure that subcontractors are aware of gender mainstreaming and non-discrimination mainstreaming.

2.4 Consortium management and decision-making

Consortium management and decision-making (if applicable) *(n/a for Town Twinning and Programme Contact Points)*

Explain the management structures and decision-making mechanisms within the consortium. Describe how decisions will be taken and how regular and effective communication will be ensured. Describe methods to ensure planning and control.

Note: *The concept (including organisational structure and decision-making mechanisms) must be adapted to the complexity and scale of the project.*

2.5 Project management, quality assurance and monitoring and evaluation strategy

Project management, quality assurance and monitoring and evaluation strategy

Describe the measures planned to ensure that the project implementation is of high quality and completed in time. Describe the methods to ensure good quality, monitoring, planning and control.

Describe the evaluation methods and indicators (quantitative and qualitative) to monitor and verify the outreach and coverage of the activities and results (including unit of measurement, baseline and target values). The indicators proposed to measure progress should be relevant, realistic and measurable.

Note: *The monitoring and evaluation strategy should also incorporate gender and non-discrimination considerations in order to measure changes and assess impact on gender equality issues. The indicators should be gender responsive so that they can measure gender equality changes over time. For instance, a gender responsive indicator can measure the increase in women's rate of employment or changes in social attitudes towards gender roles in work-life balance. The evaluation should be participatory and inclusive to all stakeholders, ensuring that women's and men's voices are prevalent throughout the entire evaluation process.*

2.6 Cost effectiveness and financial management

Cost effectiveness and financial management *(n/a for prefixed Lump Sum Grants)*

Describe the measures adopted to ensure that the proposed results and objectives will be achieved in the most cost-effective way.

Indicate how the financial resources will be allocated and managed within the consortium, based on the distribution and implementation of the tasks.

Present cost effectiveness measures per cost categories (e.g. staff profiles adapted to the tasks to be performed, subcontracting costs estimated based on recent offers).

2.7 Risk management

Critical risks and risk management strategy *(n/a for Town Twinning)*

Describe critical risks, uncertainties or difficulties related to the implementation of your project, and your measures/strategy for addressing them.

Indicate for each risk (in the description) the impact and the likelihood that the risk will materialise (high, medium, low), even after taking into account the mitigating measures.

Note: Uncertainties and unexpected events occur in all organisations, even if very well-run. The risk analysis will help you to predict issues that could delay or hinder project activities. A good risk management strategy is essential for good project management. The strategy should also incorporate risk mitigation measures that redress any gender inequalities and multiple discriminatory effects in project implementation. For instance, to ensure full participation of target groups in project activities, gender, age or disability-specific constrains should be taken into account. The target groups may face more than one barrier to access project activities (accessibility barriers; language barriers, availability of childcare provision, etc). Therefore, it is essential to identify these risks and undertake preventive measures in order to ensure full participation of women and men in all their diversity in project design and implementation.

3. IMPACT

3.1 Impact and ambition

Impact and ambition

Define the short, medium and long-term effects of the project.

Who are the target groups? How will the target groups benefit concretely from the project and what would change for them? In what way will the gap identified be reduced? How will the activities contribute to improve the situation (difference between starting point/state of play and the situation after the end of the project?) How will the activities contribute to the promotion and advancement of gender equality and non-discrimination mainstreaming?

Does the project aim to trigger change/innovation? If so, describe them and the degree of ambition (progress beyond the status quo).

Note: Results/outcomes are immediate changes that materialise for the target groups after the end of the project (e.g. improved knowledge, increased awareness). Results/outcomes are different to deliverables. Deliverables are

activities undertaken and outputs produced with the resources allocated to the project, e.g. training courses, conferences, manuals, video etc.

When defining expected results/outcomes and deliverables please consider if and how they will reduce, maintain, or increase inequalities between women and men, boys and girls, in all their diversity. What gender, age and disability differentiated results can be expected? How expected results will affect women and men, boys and girls from a range of diverse social groups, differently?

3.2 Communication, dissemination and visibility

Communication, dissemination and visibility of funding

Describe the communication and dissemination activities which are planned in order to promote the activities/results and maximise the impact (to whom, which format, how many, etc.). Clarify how you will reach the target groups, relevant stakeholders, policymakers and the general public and explain the choice of the dissemination channels.

Describe how the visibility of EU funding will be ensured.

Communication and dissemination activities should also contribute to the promotion of gender equality and non-discrimination. Communication materials should use gender inclusive language and positive visual representations. E.g.: when developing videos or leaflets ensure that women and men, in all their diversity, are equally represented in a non-stereotypical fashion and portrayed in active empowered roles. In addition, consider using communication channels that they are accessible to general audience, in particular to persons with disabilities, or people from marginalised groups.

3.3 Sustainability and continuation

Sustainability, long-term impact and continuation

Describe the follow-up of the project after the EU funding ends. How will the project impact be ensured and sustained?

What will need to be done? Which parts of the project should be continued or maintained? How will this be achieved? Which resources will be necessary to continue the project? How will the results be used?

Are there any possible synergies/complementarities with other (EU funded) activities that can build on the project results?

A work package means a major sub-division of the project. For each work package, enter an objective (expected outcome) and list the activities, milestones and deliverables that belong to it. The grouping should be logical and guided by identifiable outputs.</i></p> <p><i>Projects should normally have a minimum of 2 work packages. WP1 should cover the management and coordination activities (meetings, coordination, project monitoring and evaluation, financial management, progress reports, etc) and all the activities which are cross-cutting and therefore difficult to assign to another specific work package (do not try splitting these activities across different work packages). WP2 and further WPs should be used for the other project activities. You can create as many work packages as needed by copying WP1. (n/a for prefixed Lump Sum Grants)</i></p> <p><i>For very simple projects, it is possible to use a single work package for the entire project (WP1 with the project acronym as WP name). For prefixed Lump Sum Grants, each event should be one work package.</i></p> <p><i>Work packages covering financial support to third parties (⚠ only allowed if authorised in the Call document) must describe the conditions for implementing the support (for grants: max amounts per third party; criteria for calculating the exact amounts, types of activity that qualify (closed list), persons/categories of persons to be supported and criteria and procedures for giving support; for prizes: eligibility and award criteria, amount of the prize and payment arrangements).</i></p> <p>⚠ Please limit the number of work packages and reduce the number of deliverables (max 20 for the entire project).  For prefixed Lump Sum Grants, 1 work package = 1 event = 1 lump sum.

 Ensure consistency with the detailed budget table/calculator and Part A (if applicable).

Objectives

List the specific objectives to which the work package is linked.

Activities and division of work (WP description)

Provide a concise overview of the work (planned tasks). Be specific and give a short name and number for each task.

Show who is participating in each task: Coordinator (COO), Beneficiaries (BEN), Affiliated Entities (AE), Associated Partners (AP), indicating **in bold** the task leader.

Add information on other participants' involvement in the project e.g. subcontractors, in-kind contributions.

Note:

In-kind contributions: In-kind contributions for free are cost-neutral, i.e. cannot be declared as cost. Please indicate the in-kind contributions that are provided in the context of the work package.

The Coordinator remains fully responsible for the coordination tasks, even if they are delegated to someone else. Coordinator tasks cannot be subcontracted (see Model Grant Agreement).

If there is subcontracting, please also complete the table below.

Milestones and deliverables (outputs/outcomes)

Milestones are control points in the project that help to chart progress (e.g. completion of a key deliverable allowing the next phase of the work to begin). Use them only for major outputs in complex projects, otherwise leave the section empty. Please limit the number of milestones by work package.

Means of verification are how you intend to prove that a milestone has been reached. If appropriate, you can also refer to indicators.

Deliverables are project outputs which are submitted to show project progress (any format). Refer only to major outputs. Do not include minor sub-items or internal working papers, meeting minutes, etc. Limit the number of deliverables (and their data volume) to max 20 for the entire project. You may be asked to further reduce the number during grant preparation.

For deliverables such as meetings, events, seminars, trainings, workshops, webinars, conferences, etc., enter each deliverable separately and provide the following in the 'Description' field: invitation, agenda, signed presence list, target group, number of estimated participants, duration of the event, report of the event, training material package, presentations, evaluation report, feedback questionnaire.

For deliverables such as manuals, toolkits, guides, reports, leaflets, brochures, training materials etc., add in the 'Description' field: format (electronic or printed), language(s), approximate number of pages and estimated number of copies of publications (if any).

For each deliverable you will have to indicate a due month by when you commit to upload it in the Portal. The due month of the deliverable cannot be outside the duration of the work package and must be in line with the timeline provided below. Month 1 marks the start of the project and all deadlines should be related to this starting date.

The labels used mean:

Subcontracting (n/a for prefixed Lump Sum Grants)

Subcontracting

Give details on subcontracted project tasks (if any) and explain the reasons why (as opposed to direct implementation by the Beneficiaries/Affiliated Entities).
 Subcontracting — Subcontracting means the implementation of ‘action tasks’, i.e. specific tasks which are part of the EU grant and are described in Annex 1 of the Grant Agreement.
Note: Subcontracting concerns the outsourcing of a part of the project to a party outside the consortium. It is not simply about purchasing goods or services. We normally expect that the participants have sufficient operational capacity to implement the project activities themselves. Subcontracting should therefore be exceptional.
 Include only subcontracts that comply with the rules (i.e. best value for money and no conflict of interest; no subcontracting of coordinator tasks). Make sure that subcontractors are aware of the principles of gender mainstreaming and non-discrimination mainstreaming.

Work Package No	Subcontract No (continuous numbering linked to WP)	Subcontract Name (subcontracted action tasks)	Description (including task number and BEN/AE to which it is linked)	Estimated Costs (EUR)	Justification (why is subcontracting necessary?) Other issues:
 If subcontracting for the project goes beyond 30% of the total eligible costs, give specific reasons.

5. OTHER

5.1 Ethics and EU values

Ethics and EU values

Describe ethics issues that may arise during the project implementation and the measures you intend to take to solve/avoid them.

Describe how you will ensure gender and non-discrimination mainstreaming in the project cycle. This means integrating gender equality and non-discrimination considerations in the design, implementation, monitoring and evaluation of project activities. Projects activities should be pro-active and contribute to the equal empowerment of women and men, girls and boys, in all their diversity, and ensure that they achieve their full potential, enjoy the same rights and opportunities. Gender and non-discrimination mainstreaming are a key mechanism for achieving gender equality and combating multiple and intersecting discrimination. In the delivery of project activities gender mainstreaming shall be ensured by systematically monitoring access, participation, and benefits among different genders, and by incorporating remedial action that redresses any gender inequalities and discriminatory effects in implementation of planned activities. The activities shall also seek to reduce levels of discrimination suffered by particular groups (as well as those at risk of multiple discrimination) and to improve equality outcomes for individuals.

If your project has a direct or indirect impact on children and their rights, indicate it clearly here. Make sure that your project is based on a child rights approach, i.e. that all the rights of the EU Charter of Fundamental Rights and the United Nations Convention on the Rights of the Child (UNCRC) and the Optional protocols, are promoted, respected, protected and fulfilled. The project should address children as rights holders and should ensure their participation in the design and implementation of the project. If you will have direct contacts with children you will have to provide a child protection policies in line with the [Keeping Children Safe Child Safeguarding Standards](#).

Explain how you intend to address privacy/data protection issues related to data collection, analysis and dissemination.

Outline measures to be taken and the policies in place to guarantee compliance with the EU values mentioned in Article 2 of the Treaty on the European Union and Article 21 of the EU Charter of Fundamental Rights.

6. DECLARATIONS

Double funding

Information concerning other EU grants for this project

 Please note that there is a strict prohibition of double funding from the EU budget (except under EU Synergies actions).

YES/NO

We confirm that to our best knowledge neither the project as a whole nor any parts of it have benefitted from any other EU grant (including EU funding managed by authorities in EU Member States or other funding bodies, e.g. EU Regional Funds, EU Agricultural Funds, etc). If NO, explain and provide details.

We confirm that to our best knowledge neither the project as a whole nor any parts of it are (nor will be) submitted for any other EU grant (including EU funding managed by authorities in EU Member States or other funding bodies, e.g. EU Regional Funds, EU Agricultural Funds, etc). If NO, explain and provide details.

Financial support to third parties (if applicable)

If in your project the maximum amount per third party will be more than the threshold amount set in the Call document, justify and explain why the higher amount is necessary in order to fulfil your project's objectives.
